What Your Child Learned Today

A creative studio experience where
**YOUR children learn
to direct technology**
rather than be directed by it.

In a world increasingly shaped by technology and artificial intelligence, children benefit from learning that technology is most powerful when guided by human **creativity, judgment, and purpose.**

During AI Creator Studio, students created artwork, stories, music, and media while making the decisions that shaped every outcome.

THEY PRACTICED:

CREATIVITY

DECISION
MAKING

STORYTELLING

TECHNOLOGY
CONFIDENCE

“ AI generated possibilities.
*Your child supplied the imagination,
judgment, and direction.* ”

Director's Manifesto

EVERY GREAT DIRECTOR KNOWS:

TECHNOLOGY IS A TOOL.

BETTER INSTRUCTIONS
CREATE BETTER RESULTS.

CREATIVITY STARTS
WITH IDEAS.

HUMANS MAKE THE
FINAL DECISIONS.

I AM THE DIRECTOR.
