Tech

Final Presentation Day

Each presentation should demonstrate the project, explain the main choices, show validation evidence, and account for AI use if applicable.

My Explanation Checklist

Use this to guide a clear and complete explanation.

- PURPOSE**
State the goal of the project and why it matters.
- MAIN BEHAVIOR (WALKTHROUGH)**
Show what the project does. Walk through the main flow.
- VALIDATION EVIDENCE**
Share test results, outputs, or examples that prove it works.
- REVISION OR DECISION**
Explain what you changed or decided and why.
- AI USE, IF APPLICABLE**
Explain how AI was used and how you applied your judgment.
- CODE/STRUCTURE ONLY IF ASKED**
Dive into code or structure details only if the audience asks.

Be clear. Be concise. Own your work.

What To Explain

AI-Use Accountability

If AI helped, explain:

- what it contributed
- what you changed or rejected
- how you verified the result
- what decisions remained yours

Questions Are Part Of The Assessment

Questions are used to verify understanding.

Be ready to explain what your project does, how it works, how you tested it, and why your choices make sense.
